

We received your request dated January 13, 2009 calling for additional information regarding contributions Lynn Jenkins for Congress received to retire debt left from our 2008 primary campaign. After receiving your RFAI last month, we recalculated our net debts outstanding at the time of the primary as called for in the formula in the FEC candidate guide. Based on our new calculations in compliance with the formula, it appears we received two contributions that exceeded our net debts outstanding from the 2008 primary. We subsequently took action to presumptively redesignate the receipts from the National Business Aviation PAC and Embarq PAC to the primary of 2010. Those adjustments are made in the accompanying 30 Day Post General amendment."
